Experience

Cristo Rey Jesuit High School,

Chicago, IL

Assistant Track & Field Coach

Mar 2026 – Present

- Coach boys and girls track & field athletes across sprint, distance, and throws events, developing individualized training plans that build technical skill, character, and confidence.
- Collaborate with the head coach and staff to design and execute practice plans aligned with current coaching and training methodologies.
- Mentor a diverse student-athlete population — many of whom are first-generation college-bound — fostering a supportive, empowering team environment consistent with the Jesuit whole-person development model.
- Leverage bilingual (English/Spanish) communication skills to engage effectively with student-athletes and families from Spanish-speaking communities across Chicago's southwest side.

Saint Xavier University,

Chicago, IL

IT Repair Agent/Front Desk Support,

August 2025–Present

- Assist students, faculty, and staff with technical difficulties by creating and managing support tickets.
- Collaborate with multiple departments to escalate and resolve complex cases efficiently.
- Provide front-desk support, resolve hardware/software issues, and escalate complex cases as needed.
- Troubleshoot hardware and software issues while maintaining strong customer service standards.
- Document issues and solutions in the ticketing system to improve service response time.
- Deliver excellent customer service by troubleshooting both in person and over the phone.

Saint Xavier University,

Chicago, IL

Teaching Assistant,

August 2024–January 2026

- Assisted the professor in delivering course material for Introduction to Computer Science 112 and Computer Science 206, supporting lectures, discussions, and in-class activities. Tutored students individually and in small groups to reinforce learning objectives and improve academic performance.
- Prepared and organized instructional materials, handouts, and digital resources for classroom use.
- Provided technical support for classroom technology, including projectors, learning management systems, and online platforms.

LA Fitness,

Chicago, IL

Front Desk Operations,

July 2023–Present

- Assist guests and members with accessing and navigating the LA Fitness mobile app for class scheduling, account management, and check-ins.
 - Verify membership credentials and process guest passes in accordance with club policies.
 - Process payments and handle cash, credit, and digital transactions with accuracy.
 - Maintain the cleanliness of the front desk area and ensure a well-organized presentation of marketing materials.
 - Respond to member inquiries, resolve issues, and escalate management concerns when needed.
 - Collaborate with staff to coordinate daily attendance tracking and special event check-ins.
-

Leadership and Activities

Saint Xavier University,
President Cougar Code

Chicago, IL
Jul 2023 – Present

- Lead campus-wide initiatives supporting women and underrepresented students in technology, coordinating workshops, community events, and networking programming for diverse stakeholder groups.
- Collaborate with university administrators and student members to plan and execute programs effectively, demonstrating event planning and stakeholder coordination skills directly applicable to executive office support.

Saint Xavier University,

Chicago, IL

Varsity Track & Cross Country Athlete

Aug 2022 – Present

- Balances rigorous academic and leadership responsibilities with competitive athletics, demonstrating exceptional time management, discipline, and deadline-orientation.

Projects

Stylix Fashion Full-Stack Web Application
JavaScript, Node.js, Express, MySQL

Chicago, IL
January 2026–Present

- Collaborated with a team of developers to build a full-stack fashion web app with dynamic routing, serving pages for Home, Designer Dashboard, User Dashboard, Login, and Registration.
- Designed a relational MySQL database with foreign key relationships and unique constraints to prevent duplicate entries.
- Implemented a designer upload system using Multer for image storage, dynamically rendering fashion items as cards pulled directly from the database.
- Built a "Liked Closet" feature persisting user-liked items to the database and displays them on the user dashboard.
- Handled form data and JSON requests server-side using Express middleware with duplicate entry prevention via SQL constraints.

Gym Day Fitness membership Full-Stack Web App
JavaScript, Bootstrap, Node.js, MySQL

Chicago, IL
April 2025-July 2025

- Developed a 5-page full-stack web application including Home, Member Registration, Check-In (with automatic date logging), and Guest Registration pages.
- Built a responsive and mobile-friendly UI using Bootstrap and JavaScript.
- Designed and implemented a Node.js/Express backend to handle routing, server logic, and user data.
- Created a MySQL relational database with foreign key relationships linking guests to members.
- Added form validation and dynamic UI updates for a better user experience.
- Ensured secure and efficient data handling for membership and attendance records.

Honors & Awards

Sylvia M. Schlunk Award (2024), Illinois Seal of Biliteracy (2022)
Daktronics-NAIA Scholar-Athlete (2023)
